Bursting Angry Bubbles<sup>®</sup>

Learning is the  
key to change

**Bursting Angry Bubbles<sup>®</sup>** is an innovative program for children turning 7-12 years within that year.

The 8 week course aims to help children understand anger and negative emotions and to learn new skills in handling their behavior. The first step in this program is to teach children that anger is normal but it is how to react that makes the big difference.

Teaching children that set backs and obstacles can make them stronger and more resilient. Resilience embraces the ability of a child to deal more effectively with stress and pressure, to cope with everyday challenges, to bounce back from adversity, trauma, to develop clear and realistic goals, to solve problems to relate comfortably with others, and to treat oneself with respect.

Children often respond with anger because they feel helpless, lonely, embarrassed, isolated, anxious or hurt. Anger can also be a reaction to frustration.

### What will be covered during the course:

- **What is anger?**
- **Why do I get angry? (*cause and awareness*)**
- **Looking for solutions and problem solving**
- **Practicing change and using new tools with confidence.**
- **Respect/empowerment and inner peace.**

**This program uses a number of holistic modalities to assist children gain positive outcomes.**

### When and Where?

Local Primary & High Schools  
as requested

### **Bursting Angry Bubbles<sup>®</sup>**

In-School Program is an  
8 week course  
during school term
